

Streamline, Connect, Facilitate.

iMedRIS offers grants management software solutions that enable a streamlined and automated process from application completion through submission. With the eProposal Assistant, it's simple to complete all parts of the grant submission process including proposals, budgets, sponsor forms, and System-to-System and Non-System-to-System submissions to sponsors. With the eAward Assistant, track expenses, compliance, reconciliation, reporting and more.

Pre-Award Management

- ▶ Track workflow from initiation to award
- ▶ Connect continually to Grants.gov for system-to-system submissions
- ▶ Enforce data integrity with real time feed from award interfaces and ability to merge data from system profiles
- ▶ Get automated notifications related to funding opportunities
- ▶ Set up budgets dynamically
- ▶ Complete sponsor validations and contract negotiations online

Post-Award Management

- ▶ Create budgeting with expense codes, including roll up sub-award budgets
- ▶ Submit re-budgeting requests
- ▶ Complete invoicing, close outs, and reconciliations
- ▶ Manage compliance issues
- ▶ Access sub-recipient dashboards
- ▶ Interface with popular financial systems such as PeopleSoft
- ▶ Complete standard award, technical, and effort reports with granular visibility, multiple certification levels, definable reporting periods, and frequencies
